

Gabriel Schaldach Morgado

ABOUT ME

I am 1 years old and I've been studying programming since I was 15, and I currently work as a Full Stack Web developer. I started programming in High School, and since then have developed personal projects especially on web development. My main experience is on the frontend with Javascript and React, and also on backend with Nodejs.

PROFESSIONAL EXPERIENCE

Webphy, Balneário Camboriú - *Junior Full Stack Web developer*
03/2023 -

Webphy is a startup that is developing a platform for building AI applications in various areas. I have developed APIs, frontend and backend components, prototypes and algorithms that work together with the AI built in the company, focused on computer vision and the digitalization of the physical world.
